

CANTINE GULINO

Chalices of History

THE WINERY

Cantine Gulino is a historical winery in the heart of South-Eastern Sicily.

The Gulino's family has sold wines in Siracusa since 1600. Then, in 1793, they bought the lands of Contrada Fanusa where they cultivated ancient and typical grape varieties: Nero d'Avola, Albanello and Moscato.

The winery has always been quality oriented and devoted to the recovery and enhancement of the historical and typical vines of the territory, as firmly rooted in the tradition of Sicily and related to the origins of Siracusa.

THE VINEYARDS

Walking through the vineyards means an exciting journey to discover the origin of the sicilian wine excellences and the historical, cultural and gastronomic heritage of Siracusa.

The winery actually owns fifteen hectares of vineyards in Siracusa.

Along the typical and historical cultivar of the area (Nero d'Avola, Moscato di Siracusa, Albanello), the winery also cultivates sicilian and international vines (Inzolia, Syrah, Chardonnay) from which it produces eight wines: two sweet wines, two red wines and four white wines.
